Temporary regulations for the prevention and control of small-pox.

(*d*) "Patient" means a person suffering from or suspected to be suffering from small-pox;

(*e*) "Medical practitioner" means any person practising the medical profession.

Notices.

2. If in any case the Health Officer or a Sanitary Inspector considers that the issue of a notice under regulation 20 is likely to lead to such an amount of delay as might facilitate the spread of small-pox, he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

3. If any measure which the Health Officer or a Sanitary Inspector has, by a notice issued under regulation 20, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the Health Officer or a Sanitary Inspector shall be entitled to carry out the measure.

Cost and compensation.

4. (*1*) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the municipality except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by such person:

Provided that where the conditions, which led the Health Officer or a Sanitary Inspector to pass such an order, are not attributable to any act or default of the person in possession of the property, the municipality may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(*2*) The municipality may recover all expenses incurred by the Health Officer or a Sanitary Inspector in carrying out the measure under regulation 3 from the person or persons to whom the notice was originally issued.

5. The municipality shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations, if he has failed to carry out an order, issued under these regulations within the time specified in the order and to the satisfaction of the Health Officer or a Sanitary Inspector.

Location of disease.

6. When a case of small-pox occurs in a house, the nearest male relative in attendance upon the patient, or in the absence of any such relative the occupier of the house, or if the occupier be the patient, the senior male inmate of the house other than patient of the house shall within twenty-four hours of the onset of the disease, give information regarding the occurrence of such case either personally or in writing to the nearest Sanitary Inspector. When the inmates of the house are all females the medical attendant or the senior male inmate of the nearest house shall give the required information.

7. (*1*) Every medical practitioner called in to attend upon any case of small-pox shall forthwith give notice of the case by a special messenger to the Health Officer or a Sanitary Inspector and the cost of such messenger in each case shall be defrayed by the municipality.

(*2*) The doctor-in-charge of a hospital or a dispensary within the municipality shall forthwith give notice of any case of small-pox brought to such hospital or dispensary for treatment to a Sanitary Inspector or to the Health Officer by a special messenger and the cost of such messenger in each case shall be defrayed by the municipality.

8. Registrars of births and deaths shall apply to the Health Officer or a Sanitary Inspector such periodical returns of cases of small-pox as he may from time to time call upon them to furnish.

9. The Health Officer or a Sanitary Inspector may examine any person who is or suspected to be suffering from small-pox or who, in his opinion, may be infected with or likely to spread small-pox.

Isolation of patients.

10. When the Health Officer or a Sanitary Inspector considers that the isolation of any patient is a precaution necessary for the protection of the neighbouring population, he shall order the patient to observe isolation and may order the nearest relative in attendance on the patient, or the occupier of the house in which the patient is staying to arrange for the isolation of the patient in such a manner and for such a time as may be approved by the Health Officer or a Sanitary Inspector.

He shall not direct the patient to be removed from the house unless it is, in his opinion, impossible to make proper arrangements for his isolation therein.

11. The Health Officer or a Sanitary Inspector may order that any person, who has been in contact with a person found to be suffering from small-pox shall be segregated for a period not exceeding a fortnight in a manner and in a place to be approved by the Health Officer or a Sanitary Inspector.

12. The Health Officer or a Sanitary Inspector may order that any person who has been in contact with a person found to be suffering from small-pox

shall be vaccinated or revaccinated within a time to be specified in the order.

13. No person shall enter any place wherein a patient is isolated under regulation 10 without the permission of the Health Officer or a Sanitary Inspector.

Calcutta, the 4th March 1944.

A. AHMAD, Personal Assistant,
for Director of Agriculture, Bengal.

AGRICULTURE DEPARTMENT
BENGAL.

Calcutta, the 13th March 1944.

Second Forecast of the Spring Oilseed Crops, 1943-44.

(*Note*—On an average of five years ending 1941-42 the area under linseed in Bengal has represented some 3·8 per cent. and that of rape and mustard 12·2 per cent. of the total area under these crops in India.)

Character of the season.—Since the submission of the First Forecast in December last the weather and its effect on the growth of the crops were not quite favourable. Heavy showers in January have caused some damage in certain places. Damage due to insect-pests and drought has also been reported from a few districts. The present condition of the crop, on the whole, is fair.

Area sown.—Oilseeds are chiefly grown in Dacca, Rajshahi and Presidency Divisions. In the other two divisions the cultivation is not extensive. The total area under these crops (excepting *sesamum* for which separate forecasts are issued) is returned at 1,007,600 acres this year against 1,083,400 and 1,087,200 acres in the corresponding and final forecasts of last year respectively. The decrease in area is reported to be due to unfavourable weather condition at sowing time.

Outturn.—From the District Officers' estimates the average outturn of the different oilseed crops for the province works out at 73 per cent. of the normal against 74 and 78 per cent. reported respectively, in the corresponding and final forecasts of last year.

M. CARBERY,
Director of Agriculture, Bengal.
